Community Co-Operation

By R. K. Phillips.

You doubtless realize the fact that the town and community in which you live is greatly benefited by the money you and your neighbors spend in the local markets. It is also safe to say that you realize that the community suffers, and that its growth is retarded by failure on the part of the people to patronize your local stores. Of course, you would not intentionally do anything that could in any way hurt you locally. In fact, the average person who sends or goes away for purchases instead of making them locally, figures that the small amount of their particular expenditures does not amount to much, and can do little if any harm. It is this line of reasoning on the part of the many, that causes so much

buying away from home. An investigation of the amount of money sent or taken away from your community, annually, for the purchase of articles that could be bought to practically as good advantage locally, would greatly surprise you, as well as convince you that this money is kept in circulation at home, would do much to improve conditions in the way of better streets, sidewalks, schools, churches, etc. Of course, if your local merchants cannot, or do not, offer you as good merchandise, and at practically as good prices as can be found elsewhere, you could not be expected to patronize them. However, all things being equal, you owe it to yourself, and to your community to spend your money at home.

Just As Easy

It is just as easy and much better to have Electric lights than oil lamps. Ask those who have already made the exchange and see if they would exchange back to the old rut of oil lamps? We wire houses cheap, but NOT cheap wiring. Phone 165.

One way to overcome the high cost of living is to plant a garden and grow your own vegetables. Not only that but you can have your vegetables fresh and just when you want them. Without tools to work with, no workman can accomplish much. Why not visit our store and supply yourself with the necessary implements to enable you to have a good garden. See our line of garden hose, rakes, hand cultivators, spading forks, shovels, spades, garden plows and other tools we have 'nt space to mention.

When your garden or lawn needs some irrigation, you will want some hose, so let that remind you that the place to buy it is The Western Windmill Co. As you know, we have several stores and when we buy hose, we buy in large quantities, hence we can get a better grade for the same price others pay for cheaper grades and we give you the benefit of this.

Do you have any trash to move about your premises? Or perhaps you might wish to haul some dirt to fill in a flower bed. With a wheelbarrow the work is easily and quickly done. You would find innumerable uses for one. We have garden barrows like cut, also wooden barrows with tray shaped body and all steel barrows.
